EDUCATION

The Ohio State University

Columbus, OH

Bachelor of Science in Computer Science and Engineering

Expected Graduation: December 2027

Relevant Coursework: Data Structures and Algorithms, Software Components, Web Development, Database Management, Operating Systems, Software Development and Design

TECHNICAL SKILLS

Languages: Python, JavaScript, Java, SQL, Ruby, Elixir, HTML/CSS

Frontend: React.js, Redux, Tailwind CSS, responsive/component-based UI design

Backend & Cloud: Node.js, Express.js, Phoenix, MongoDB, PostgreSQL, RESTful API design

Developer Tools: Git, Docker, Jenkins, Datadog, Vercel, Jira, CI/CD pipelines, VS Code, IntelliJ

Methodologies: Agile/Scrum development

EXPERIENCE

CoverMyMeds (McKesson)

Columbus, OH

Software Engineering Intern

June 2026 - August 2026

- Engineered a vector embedding solution for an internal AI platform to extract insurer data from policy documents, replacing manually maintained mappings and improving matching accuracy **across 337** insurance companies — supporting a business case to eliminate a **\$500K/year** external data subscription.
- Redesigned an internal admin homepage into a React operational dashboard, reducing navigation to frequently used workflows from **3+** clicks to a **single** click.
- Diagnosed slow query performance on high-traffic search fields across **millions of PA status** records, and added targeted PostgreSQL indexes that cut response time from **800ms** to **150ms**.

JPMorgan Chase — Code for Good Hackathon

Columbus, OH

Software Engineer, Hackathon Participant

November 2025

- Selected as **1 of 175** students nationwide (from **12,000+** applicants) to participate in JPMorgan Chase's Code for Good Hackathon.
- Architected and built the frontend for "The Lilabeen Impact Center," leading UI/data-visualization decisions within a **6-person** cross-university team, earning **3rd place** among competing teams.
- Designed a real-time dashboard with Flask, PostgreSQL, and Chart.js to surface funding and research metrics, translating raw donation/research data into a usable interface for a nonprofit with no in-house engineering team.

Walmart

Groveport, OH

Systems Associate

February 2022 - December 2025

- Administered Global Logistics Systems (GLS) across a high-volume distribution center, partnering with systems experts to troubleshoot issues and drive a **15% reduction in operational downtime**.

PROJECTS

Memories App | React.js, Redux, Express.js, Node.js, MongoDB

- Built and deployed a **full-stack MERN** application with a RESTful API backend and React frontend, enabling users to post, like, and manage personal memories.
- Managed shared application state across React components with Redux and built a responsive interface for viewing and managing memories.
- Reached **13+ users** through personal outreach and social sharing, validating memory posting, likes, and secure login through real-world use.

Fundraiser Web App | React, Tailwind CSS,

- Partnered with a **2-person** team to build a responsive React.js site educating users about drought relief in Africa, driving over **\$1,275 in recorded donations**.
- Researched and incorporated content from trusted sources, including the World Food Programme and UNESCO reporting, to ensure the site's information on drought relief in Africa was accurate and credible.

Split the Bill | Ruby on Rails, PostgreSQL, Bootstrap

- Built an admin dashboard with **full CRUD** functionality in Ruby on Rails, enabling groups to create, update, and **manage shared travel expenses** and budgets across trips.
- Modeled dependent-destroy associations in Rails to maintain data integrity when related records were removed, preventing orphaned data across the app.

LEADERSHIP / PROFESSIONAL DEVELOPMENT

Minorities in Tech — The Ohio State University

Event Organizer

01/2025 - 04/2025

- Organized outreach events connecting **minority CS students** with industry professionals, bringing **3 companies** to campus to engage recruiters and engineers with students in a single semester.

SpringBoard Software Development

Walmart-Guild Sponsored Program

Bootcamp Member

May 2025 - August 2025

- Selected as **1 of 25** participants from **750+** applicants for an intensive full-stack development program; completed a capstone project to strengthen web development and problem-solving skills.
