EDUCATION

The Ohio State University

Columbus, OH

Bachelor of Science in Computer Science and Engineering

Expected Graduation: December 2027

Relevant Coursework: Data Structures and Algorithms, Software Components, Web Development, Database Management, Operating Systems, Software Development and Design

TECHNICAL SKILLS

Languages: Python, JavaScript, Java, SQL, Ruby, Elixir, HTML/CSS

Frontend: React.js, Redux, Tailwind CSS, responsive/component-based UI design

Backend & Cloud: Node.js, Express.js, Phoenix, MongoDB, PostgreSQL, RESTful API design

Developer Tools: Git, Docker, Jenkins, Datadog, Vercel, CI/CD pipelines, VS Code, IntelliJ

Methodologies: Agile/Scrum development

EXPERIENCE

CoverMyMeds (McKesson)

Columbus, OH

Software Engineering Intern

June 2026 - August 2026

- Engineered a vector embedding solution for an internal AI platform to extract insurer data from policy documents, replacing manually maintained mappings and improving matching accuracy **across 337** insurance companies — supporting a business case to eliminate a **\$500K/year** external data subscription.
- Redesigned an internal admin homepage into a React operational dashboard, reducing navigation to frequently used workflows from **3+** clicks to a **single** click.
- Optimized PostgreSQL searches by indexing high-traffic search fields to maintain query performance as data volume grew.
- Diagnosed and resolved a production incident causing HTTP 500 errors by adding safeguards for missing data and enhancing Datadog logs to support troubleshooting.

JPMorgan Chase — Code for Good Hackathon

Columbus, OH

Software Engineer, Hackathon Participant

November 2025

- Selected as **1 of 175** students nationwide (from **12,000+** applicants) to participate in JPMorgan Chase's Code for Good Hackathon.
- Led frontend development within a cross-university team of 6 to build "The Lilabeen Impact Center," a data-driven web platform for a nonprofit **supporting pediatric brain cancer research**.
- Developed a real-time data visualization dashboard with Flask, PostgreSQL, and Chart.js to surface funding and research insights to stakeholders.

Walmart

Groveport, OH

Systems Associate

February 2022 - December 2025

- Administered Global Logistics Systems (GLS) across a high-volume distribution center, partnering with systems experts to troubleshoot issues and drive a **15% reduction in operational downtime**.

PROJECTS

Memories App | React.js, Redux, Express.js, Node.js, MongoDB

- Built and deployed a **full-stack MERN** application with a RESTful API backend and React frontend, enabling users to post, like, and manage personal memories.
- Implemented JWT-based authentication and Google OAuth to support authenticated access and Google account sign-in.
- Managed shared application state across React components with Redux and built a responsive interface for viewing and managing memories.
- Reached **13+ users** through personal outreach and social sharing, validating memory posting, likes, and secure login through real-world use.

AI Resume Analyzer | React, TypeScript, Tailwind CSS, Puter.js

- Built a React and TypeScript web app that uses AI to analyze resumes against job descriptions, surfacing tailored feedback on strengths, gaps, and keyword alignment.
- Integrated Puter.js to generate tailored feedback on resume strengths, areas for improvement, and job-specific recommendations.

Fundraiser Web App | React.js, Tailwind CSS

- Partnered with a **2-person** team to build a responsive React.js site educating users about drought relief in Africa, driving over **\$1,275** in recorded donations.

LEADERSHIP / PROFESSIONAL DEVELOPMENT

Minorities in Tech — The Ohio State University

Event Organizer

01/2025 - 04/2025

- Organized events connecting **minority CS** students with company representatives, coordinating outreach to bring recruiters and engineers on campus.

SpringBoard Software Development

Walmart-Guild Sponsored Program

Bootcamp Member

May 2025 - August 2025

- Selected as **1 of 25** participants from **750+** applicants for an intensive full-stack development program; completed a capstone project to strengthen web development and problem-solving skills.
